As an aside from a Pre-Enforcement Conference on 103rd and Doty, I questioned George Kelly, MWRD, Environmental Design, on the reasons for the lack of sludge distribution this last summer. Had the Catholic Cemeteries' odors episode last year shut the program down? No, he said. Firstly, all the rain this summer led to a limited availability of acceptable "product". Then, he had to compete with Fulton County for what material was available.

Regarding odors, starting with the 1989 projects, Carl Strohm acts more like an RE, site construction trailer and all.
